

LEGO BRIDGE BUILDING BATTLE

OBJECT OF THE GAME:

Build the bridge that can hold the most weight!

WHAT YOU'LL NEED:

- Legos
- 100 pennies
- 1 cup

INSTRUCTIONS:

Playing the Game: Players will each build their own Lego bridge, with the goal of making it the strongest bridge possible. Once the players are done, they can begin to test their strength by placing a cup on top of the bridge and increasing the weight of the cup by one penny at a time. The player to build the strongest bridge, wins!

Tip: For added competition, consider setting a time limit to the challenge or specifications, such as bridge length or height off the ground!
