The Wellness Support Team

The Wellness Support Team (WST) is an interdisciplinary collaborative of University officials that meets regularly to discuss exhibiting behaviors indicative of an elevated risk.

The WST is able to quickly triage residents and students, utilize diffusing techniques, provide immediate assistance, and help arrange for academic support. The Wellness Support Team is designed to support residents and students by connecting them to resources and serving as an on-campus source of support. The WST collaborates with other offices, including the Office of Student Life, Center for Academic Success, and OSU CHS Campus Security, etc. The WST operates under the Family Educational Rights and Privacy Act (FERPA) in a non-clinical, case management capacity, and does not provide psychotherapy. Information may be provided to appropriate faculty and staff members based on a business need to know and/or for health and safety reasons; the WST always works to respect the privacy of the person.

Referrals

To complete a referral, use the online form located here: https://health.okstate.edu/centernet/index.html.

Residents/Students may refer themselves as well. If you are concerned about a person, but have not witnessed any distressing or disruptive behavior, please explain your concern in detail. Once the Wellness Support Team receives a referral, a team member will reach out to the person within one business day. The team member will connect the person to the appropriate support services and resources. The team member will follow-up with the reporting party as needed. For any questions, team members can be reached during business hours by calling the Assistant Dean of Student Life at 918.561.1880 or email wellnesssupportteam@okstate.edu

Please note: A crisis or emergency involving a resident or student should be reported to the OSU Campus Security Department by calling 911 or 918.625.8592.
