Job Offer: Making the Decision

Use the matrix below as a decision making tool when comparing multiple job offers. You may find it helpful to first prioritize the importance of the items listed on the back side of this worksheet.

Job Offer Comparison

In the "My Needs" column, weigh the criteria on a scale from 1 to 10 (1 = least important, 10 = most important) to determine your value for each factor. Next, on a scale from 1 to 10, weigh how well each company satisfies each of the criteria. Finally, total the columns. The higher the score, the closer the company comes to matching your needs.
