Professional Development for Graduate Students

What do we have to offer?

Quick Advice

We have a focus on professional development. Most of our applicants are already employed in their respective fields. If you have a "quick question" about your job search or need a "place to start" in resume development, cover letter writing, interview preparation, or job searching, take a look at our reference sheets. These sheets cover a variety of topics to assist you in exploring careers and preparing for your job search. In many cases, you will find the answers you need in these reference sheets. If these resources don't provide the information you need, you are encouraged to reach out to the professional development coordinator. Their contact information can be found on our main page.

Individual Assistance

Putting a good resume or cover letter together takes time and energy. Preparing for an interview requires research and practice. Understanding where to search for a job and what key words to use can be frustrating. These are some of the things our professional development coordinator can assist with on an individual basis.

Mock Interviews

Do you need assistance with interview preparation? Do you have questions and concerns about what to expect in an interview? Or do you just want to fine-tune your interviewing technique? Schedule a mock interview to help you be prepared so you don't miss out on the job of your dreams.

Professional Development Series Webinars

A variety of informative presentations and workshops are offered during the fall and spring semesters. These webinars are hosted by OSU-CHS Graduate Programs and conducted by industry professionals from within the OSU community and from across the country. These webinars also serve as perfect networking opportunities with working professionals already in the field. Check the OSU-CHS event calendar for dates and times of these workshops. All webinars will require RSVP.

We want you to have the job search skills that ensure your success.
